

REEEM Innovation and Technology Roadmap Workshop on Energy Storage Applications

When: Friday, 19th of May 2017 (9:00am – 4:30pm)

Where: EERA Secretariat's premises (72 rue de Namur, 1000 Brussels)

Objective: Gather external experts' inputs in order to consolidate the first version of the REEEM Innovation and Technology roadmap on energy storage applications.

Morning Session

- 9.00 to 9.20: Welcome session & Introduction to the REEEM project
- 9.20 to 9.40: Presentation of the “Clean Energy for All Europeans” package and its impact on the energy storage sector (*Dimitrios Sofianopoulos, Policy Officer, DG ENER, European Commission*)
- 9.40 to 10.00: Energy storage and the “Clean Energy for All Europeans” package: a solar energy's perspective (*Thomas Doering, Policy Analyst, SolarPower Europe*)
- 10.00 to 10.30: Q&A session

10.30 to 10.45: Coffee break

- 10.45 to 11.15: How could the EU become a major actor in the energy storage sector? (*Mikael Dahlgren, Head of Research & Development, ABB*)
- 11.15 to 12.00: Presentation of the REEEM Technology and Innovation Roadmap on Storage Applications (*Bo Normark, Thematic Leader & Anna Darmani, Energy System Analyst, InnoEnergy*)
- 12.00 to 12.30: Q&A session and wrap-up

12.30 to 13.30: Lunch break

Afternoon Session

- 13.30 to 14.15: Innovation: what SMEs do in energy storage? (*Skeleton, Elestor, Eldev, Northvolt*)
- 14.15 to 14.30: Q&A session

14.30 to 14.45: Coffee break

- 14.45 to 16.15: Roundtables on the presented scenarios in the REEEM roadmap and coming up with solution on how overcome the barriers behind storage development and deployment.
- 16.15 to 16.30: Wrap-up
